EDUCATION

2023-2027
KONGU ENGINEERING COLLEGE
B.TECH AIML
CGPA(TILL 6th SEM) --8.13

2022-2023
SRI VIDYA MANDIR MATRIC HR SEC
SCHOOL,NAMAKKAL
12TH STD - 88%

2020-2021
SRI VIDYA MANDIR MATRIC HR SEC
SCHOOL,NAMAKKAL
10TH STD - PASS

AREA OF INTERESTS

- MACHINE LEARNING
- WEB DEVELOPMENT
- UI/UX
- CLOUD COMPUTING

LANGUAGES

- JAVA
- JAVASCRIPT
- PYTHON

TECHNICAL EXPERTISE

- MACHINE LEARNING
- DBMS
- DATA STRUCTURE
- WEB DEVELOPMENT
- DATA ANALYTICS

CERTIFICATIONS

- Google colud computing(NPTEL)--71%
- Global Certification on MongoDB
- Oracle Cloud Infrastructure 2025 Certified
AI Foundations Associate

CAREER OBJECTIVE

Passionate about continuous learning and academic excellence, I am an adaptable individual with strong problem-solving skills and a quick-learning mindset. I aim to innovate and contribute meaningfully to the field of engineering through dedication and teamwork.

PROJECTS

ML BASED COVID-19 PREDICTION

- Built a model to predict the spread and impact of COVID-19 using preprocessing, feature selection,and supervised learning. Visualized results with Pandas, Matplotlib, and Scikit-learn.

AI STUDY BUDDY(MATH_BOT)

- Built MathBot, an AI-powered application that solves mathematical problems from multiple input formats (text, image, camera feed, handwriting) and provides detailed step-by-step solutions.

LANGMATE-LANGUAGE SHARING

- Developed an interactive language-learning website that enables users to connect, chat, and communicate via text, audio, and video calls supporting both person-to-person and chatbot interactions with integrated language translation.

OBJECT DETECTION FOR BLIND PEOPLE

- Designed and implemented a YOLO-based real-time object detection system integrated with text-to-speech audio feedback to assist visually impaired users in identifying surrounding objects accurately and efficiently.

INTERACTIVE TAMIL BASED CHATBOT

- Built an AI-powered Tamil chatbot supporting both text and voice-based interaction, integrating speech-to-text and text-to-speech features for seamless bilingual communication and improved user accessibility.

INTERNSHIP

- Pluto Intero - Full Stack Website Development
- Developed a full-stack website for a startup focused on selling eco-friendly decoration lamps made from reused plastics. Implemented features for product display, user authentication, and online interaction using the MERN stack and Firebase.

ACHIEVEMENTS

- 1st place - Paper Presentation, PSG College (PRODOTHON 2K25).
- Won 3rd prize in the BYTS India Hackathon 2025, a 24-hour AI hackathon.
- 1st Prize for an Interactive Tamil Language Chatbot - Internal Club KEC
